

Write a Speech Activity

Have you ever wanted to tell a group of people all about something you find interesting? Maybe you have been on a holiday or a school trip or perhaps you have a topic that you are really interested in. Use the template below to create a speech that you will read in front of an audience.

Useful Tips:

- Practise reading your speech in front of the mirror or in front of people you are comfortable with.
- Remember to keep your head up and try to project your voice to the back of the room- everybody wants to be able to hear you.
- Be confident and believe in yourself!
